A novel *ERAP2* haplotype structure in a Chilean population: implications for *ERAP2* protein expression and preeclampsia risk

Derek L. Vanhille, Lori D. Hill, DaShaunda D. Hilliard, Eun D. Lee, Maria E. Teves, Sindhu Srinivas, Juan P. Kusanovic, Ricardo Gomez, Efstratios Stratikos, Michal A. Elovitz, Roberto Romero & Jerome F. Strauss III

The original article to which this Corrigendum refers was published in *Molecular Genetics and Genomic Medicine* 1(2):98–107 (DOI 10.1002/mgg3.13). In this article, references to studies regarding *ERAP2* SNP associations in different ethnic populations were cited incorrectly in the Introduction and Discussion sections. The correct sentences should read:

Introduction

Certain *ERAP2* single nucleotide polymorphisms (SNPs) have been reported to be associated with an increased risk for PE in different ethnic populations, including rs2549782 (Johnson et al. 2009; Hill et al. 2011a).

Discussion

ERAP2 has become a gene of interest in PE, and associations have been reported in several populations (Johnson et al. 2009; Hill et al. 2011a).

The authors regret these errors.
